

# Black Box Crypto Influencer Program

Program terms - version 2026-10-25

## Applying and selection

The Black Box Crypto Influencer Program has a limited number of devices. Applications are reviewed and a conversation may be requested. Applying does not guarantee acceptance, reserve a device, create a trading account, or require a payment. Prior cryptocurrency trading is not required. We look for relevant audiences, technical curiosity, and the ability to explain the product clearly. Device shipments and campaign start dates are arranged directly after selection.

## The device and investment funds

If accepted, you receive a Black Box Crypto device to use free of charge and \$1,000 USD in investment funds to use with the Box. A separate user registration code will be provided later for the device and trading account. Your influencer portal account is separate from that account. Keep your shipping address accurate.

## Your participation

You agree to create an unboxing video and product-usage videos that show both the mobile and web experiences, use the Box, and promote it honestly to your audience. You may keep the Box for one to two months based on performance. At the end of that period, you must return it using the arranged return process unless strong traction leads Black Box Crypto and you to renegotiate an extended arrangement in writing. You may keep the investment funds whether or not the Box is returned. Trading losses do not create a promise of replacement funds.

## Referral compensation

You can earn \$100 USD for each attributed customer pre-order and \$10 USD per month for that customer during the customer's first year. Customer attribution, eligibility, reversals, and payment timing are documented for accepted participants. A page view, waitlist signup, cancelled or refunded order, or unpaid pending order is not earned compensation.

## The customer offer

The planned public offer is a \$1,299 USD Black Box Crypto Box plus one managed service at \$59.99 USD per month after the first included month. Supplies are limited. Joining the waitlist is not a purchase, and checkout does not currently accept a Box payment. Final tax, shipping, activation, cancellation, and payment terms must be shown before any payment is accepted.

## Honest promotion and disclosure

Share your own honest experience. Clearly disclose that Black Box Crypto supplied the device and funds and that you may earn referral compensation, wherever you promote the product. Do not imply that you are an independent unpaid reviewer. Do not make guaranteed-return claims or present simulated results as real trading results.

## Financial risk

Cryptocurrency prices are volatile and trading can lose some or all invested funds. Automation and past results do not guarantee future performance. The Box provides tools; participation is not a promise of profit or personalized investment advice. Never send us wallet seed phrases, private keys, exchange credentials, or passwords through this application.

## Your information and agreement

We use your application details to evaluate your fit, contact you, arrange a conversation, and manage your participation if accepted. Your email must be verified before submission. We record the version of these terms and the time you accept them. The site's Privacy Policy describes how personal information is handled. Questions about the program may be sent to [admin@blackboxcrypto.com](mailto:admin@blackboxcrypto.com).
